

Forcing the Tariff Issue.

President Taft's extravagant eulogy of the Payne tariff and his declaration that "party solidarity" must be preserved at whatever sacrifice, destroys the last hope that this country will ever get relief from the robbery of monopoly tariff taxation through the Republican party.

As long as party solidarity is paramount to the fulfillment of party pledges the extreme protectionists will have their way in every Republican Congress and every Republican President will be forced to bow his neck to their yoke. Strong as are the President's inclinations toward a reasonable measure of tariff protection, strong as have been his expressions favoring a margin of protection that would only suffice to cover the difference in cost of production to home and abroad, he has been forced to surrender unconditionally to the radicals of the Aldrich-Cannon faction of his party. Any future Republican President who may favor moderation in tariff taxation will be subjected to the same humiliation.

The President's Winona speech was a slap in the face to the seven Republican Senators and the numerous Republican Representatives who voted against the Payne bill on its final passage. It was an affront to the Republican voters of Indiana, Iowa, Kansas, Minnesota, Wisconsin and other Western States, under whose instructions these Senators and Representatives opposed the outrage to the very last.

President Taft has forced the tariff issue between the two great parties to the line from which there is no receding. The "Twilight zone" between the Democratic party and the Republican party on that question has disappeared. By his speech at Winona the official leader and spokesman of the Republican party notified the Republican tariff reformers of the Northwest and the Middle West that the party has nothing for them.

The Democratic party is the only agency through which they can get what they want. The President has destroyed the usefulness of Republican tariff reform delegations in Congress. He has pointed Chairman Lloyd and the Democratic Congressional Campaign Committee to the ground on which the great tariff battle of next year is to be fought.—E. Town News.

The table almost groaned under the weight of luxuries, and at 11 o'clock sent for Mr. Roach and when he came they presented to him several nice presents, then after a few jokes they all ate dinner and spent the rest of the afternoon in song service and prayers conducted by Mr. Curt Roach. Woman's Beauty

Some women retain their beauty to an advanced age. But women, who regularly endure pain, age rapidly, for suffering leaves its lasting marks on them.

Nearly all women suffer more or less with some form of female trouble. It should not be neglected. Avoid the pain—treat yourself at home by taking Cardui, as thousands of other women have done. Begin at once and give Cardui a fair trial.
